

Datathon 2024 – Contest Rulebook & Guidelines

Organized as part of **SynergyX 2024** – National Symposium on Industry-Academia Collaboration for ICT-Enabled Bangladesh

Jointly hosted by Khulna University and CLUSTER

Contest Rulebook

Duration Time : Two day online Contest

1. Pre-selection

- **Participation in the mandatory online preliminary round is required for all participants to qualify for the final on-site contest, regardless of attendance at the grooming sessions.**

2. Competition Format

- **Stages:**
 - **Problem Understanding:** Analyze the problem statement and dataset.
 - **Data Cleaning and Feature Engineering:** Clean the dataset and extract meaningful features.
 - **Model Development and Training:** Develop machine learning models.
 - **Testing & Validation:** Test the models using appropriate metrics.
 - **Final Submission:** **Includes code, predictions, and the final presentation.**

3. Dataset and Tools

- **Dataset:** Provided at the start of the competition. External datasets may be used only if specified in the problem statement.
- **Tools:** Participants can use tools such as Python, TensorFlow, PyTorch, and Scikit-learn. **Paid tools are not permitted** unless explicitly provided by the organizers.

4. Team Composition

- Teams can consist of a maximum of **3 members**.
- No changes in team composition are allowed after the competition begins.

5. Submission Requirements

- **Code:** Well-commented code including preprocessing, training, and evaluation steps.
- **README:** Clear instructions on how to run the code.
- **Output:** Should match the specified format (e.g., CSV, JSON).
- **Presentation on :**
 - **Problem Understanding**
 - **Model Development**
 - **Testing & Validation**
 - **Final Submission** (includes code, predictions)

6. Evaluation Criteria

- **Model Performance:** Accuracy, AUC, RMSE, and other relevant metrics.
- **EDA and Data Understanding:** Depth of exploratory data analysis and insight generation.
- **Documentation:** Clarity, thoroughness, and structure of code comments and README.
- **Presentation on :**
 - **Problem Understanding**
 - **Model Development**
 - **Testing & Validation**
 - **Final Submission** (includes code, predictions)

- **(max 10 slides)**
- **Code Quality:** Readability, structure, and adherence to best coding practices.
- **Code Reproducibility:** Consistency of results when running the code as claimed (e.g., the provided code should produce the same accuracy as specified).

7. Conduct and Collaboration

- All work must be **original**, and participants must work only within their registered teams.
- Professional and respectful behavior is required at all times. **Misconduct may result in disqualification.**

Event Overview

- **Event Name:** Datathon 2024
- **Location:** CSE Discipline, Khulna University, Khulna

Focus Areas:

- Data Cleaning and Feature Engineering
- Natural Language Processing (NLP)
- Computer Vision
- Model Training and Evaluation

We are looking for teams that can clean, engineer, and analyze data while delivering innovative solutions.

Prizes:

- 🏆 **1st Place: 8,000 BDT + Certificate**
- 🥈 **2nd Place: 6,000 BDT + Certificate**
- 🥉 **3rd Place: 4,000 BDT + Certificate**

Key Dates:

- **25 October 2024: Grooming sessions** begin
- **03 November 2024: Deadline** for team registration
- **05 November 2024: Online preliminary round**
- **10 November 2024: Final onsite presentation at Khulna University**

Registration Fee:

- **500 BDT per team** (Max. 3 members)

Payment Methods:

- **Bkash:** 01750300372 (Send Money) Ref: Team_name
- **Nagad:** 01750300372 (Send Money) Ref: Team_name

Use "SynergyX_Datathon" as the reference and submit your transaction ID after registration.

Final Day Highlight – Onsite Presentation

- The **onsite presentation** on the **final day** is a crucial part of the contest, and teams must prepare to explain their entire approach, including the **data cleaning process**, model selection, and the **real-world implications** of their solution.
- **Presentation is mandatory** and will play a significant role in the evaluation of the teams.

Perks for Finalists:

- **Souvenir**, snacks, and a certificate for all participants.
- Access to the **CEO Talk** during SynergyX 2024.
